DEAR FRIENDS:—I THANK YOU
One and All—Whose Loyal Support and
Kind Patronage Has Made My Business
Such a Grand Success. May Health and
Happiness Ever Be Your Portion, is the
Wish of Your Friend, A. T. COOK.
Personal Greeting.

Dear Friends:—The very best thing about my seed business—what I value most—is the long list of good friends I have made. A few of the kind letters from my customers are given in this book, only those who you can read bound to print 100 words of them personally, but they are fast friends of mine and helping on the success of my seed business. No words of mine can ever express my gratitude to you all for your kindness.

A Farmer’s Son who Followed the Plow.

I am a Farmer’s Son. I grew up on the farm—far from railroads, and the cities maddening crowds. My Ancestors were Quakers—all Farmers from time immemorial. I grew up among Farmers and Gardening was in my dutches. By experience did I learn this truth—that “men do not gather figs of thistles,” and that high grade, CAREFULLY SELECTED seeds were absolutely essential for success.

This Kind Only have I been growing and selling for over 35 years. The Seed business is my sole life’s work, and I am sure I understand my business. My heart is in sympathy with honest planters everywhere. I personally attend to your orders, and read all your letters. I have personally selected everything in this catalog—for your best success and profit.

I am not a City Seedsman whose business is done by disinterested clerks who neither know nor care anything about gardening. I do not charge big prices to meet the enormous expense of business done in a city. The tremendous cost of bulky, fly by catalogs, and advertising is all saved for you. “This is for this I can give you more and better seeds. Far better discounts and Premiums of such great value they always excite wonder and astonishment.

Best of Mailing Facilities.

I am situated on the banks of the beautiful Hudson River—right among the most expert Farmers and Gardeners. Five days mail each way every day. Please send me Your Photo.

when you send in your order, or photos of your family, children, home, garden, stock, scenery around you, etc. You may be sure I will return the favor at once. I feel deeply interested in all my customers—I cannot tell them how much I enjoy receiving your photos—treasuring them very highly. Be sure and write your name and address on back of every one, and later I may remember you again with something nice. Here is a new encouraging which shows how your seedman looks at the present time. With thanks and best wishes,

A. T. COOK, Hyde Park, N. Y.

This is a Catalog With the Poor Things Left Out.

“Think not the Thistle Seed to Cast, And Reap the Rose Full Blown: For May You Gather—First or Last The Harvest He Has Sown.”

Special Bargains For YOU And All Your Friends.

IMPORTANT TO YOU. Read this and Following Page Carefully.

SPECIAL BARGAINS. Never before have I had so large and fine a stock of Seeds, Vines, etc., for my select trade as now. With special discounts, reprints practically every thing sent prepaid and guaranteed to reach you safely and always promptly, (ordinary free papered gratis.) These are inducements of such practical value to you that I will not only look for your own orders—but thru your influence—your friends as well. All are ORDER EARLY. Please order early as possible, before the rush comes in. This is very important in more ways than one. It is to your interest as well as mine. Please do not delay—or put it off—but write out your order NOW and I assure you, you will not regret it.

REMITTANCE MUST accompany all orders. Remit the most convenient way—Post Office Order, Bank Draft, or Registered Letter. I will take the risk by either of these good methods: letters very seldom get lost. You may select extra packets to pay cost of order or register. Postage stamps accepted when not convenient to remit otherwise. I much prefer 58 and lose stamps. Remember this.

TRY Club Raising. It is easy, pleasant, and it pays. Your business will increase every year. Begin early.

SPECIAL NOTICE. If any of my customers have purchased seeds of me that did not give satisfaction, will kindly mention it WHEN ORDERING this season, I will be glad to give them anything they wish of equal value. This is a standing offer. BE SURE and write if anything has been wrong. It is my sincere wish to please in all cases, and I wish my friends to feel free to write if anything should have proved unsatisfactory, for I will be not only willing—but glad to make it right. A. T. COOK, HYDE PARK, N. Y.
Questions Answered, Hints to Club Agents, Etc.

DEAR FRIENDS. THIS CATALOG Contains All Particulars in regard to my Seed Business. Every question suggested in my 25 years' experience is answered and no instrument is left unaided. If you can go right into the matter, you can order your own—on your own Club order, and select the Premium you wish, or you prefer discount. Deduct one-third for your order. This big discount applies to everything offered. PLEASE Order Early. This is VERY Important.

I AM A SPECIALIST. I do not catalog or sell the hundreds of poor and worthless sorts. It would be folly to grow them. My Seeds are high grade—far better than those usually offered in small packets, with directions for planting. I send valuable "Extras" with each order. My Selected Seeds are NEVER sold in bulk.

MY SEEDS are tested and known to be extra quality. They will grow. If any fail to please I gladly replace and to your cost. I have no half size packets. All prices are rock-bottom. I KNOW you cannot do as well elsewhere. My Seeds are tried and tested toward the rock-bottom.

MY PREMIUMS or Discounts are on Everything. You can take your choice. If Premiums—full catalog price must be paid. If Discount is preferred—deduct one-third. If no Premium is ordered or Discount taken, I enclose a PREMIUM COTTON good toward any Premium. Do not lose them.

NEVER SELL Premiums—but give them for orders of $5.00 or more, or for Club Agents and Club Members. Each one is EXTRA quality—good as gold [some APLG good]. They cost you absolutely nothing. I sell only what I know to be the best that I show them and my offers to your friends.

NO TOBACCO Seed sold. It is the Devil's own weed. I do not believe it right to grow the vile stuff, to do it or sell it. Millions of good boys have been ruined by it—their bodies ruined, and bright intellect stupelled and stunted. I would help cover the earth in this way. Boys, DON'T begin. Don't be a slave.

REMITTANCE MUST accompany each and every order. We do not keep bills of exchange. I have never in my life failed to receive my money.

PURCHASE CANADA. No one can give you half as good bargains as I do. Make my name known to the Postmasters of the whole country—of every county. When a farmer will give the money for the Premiums. I will give him the money. No money—get a friend to advance some for a few days.

LITTLE THINGS. Sign your name and address to every order. I have orders I cannot fill because I cannot GUESS where they go. Write plainly with ink. It may save mistakes. I send a receipt to everyone. If you have three packets of the same, or any of the same variety, I will send you the third for free, of any of my premium, Club Agents be sure and mention this when taking orders. Please send for more Premiums and circulars if you can use them.

MISTAKES. Very few. If you ever make mistakes, do so every one. I earnestly desire to correct every one here in this letter—far I cannot return to them. If you ever make a mistake, do me the kindness to write and explain—not pleasantly if you can, but write anyway. I don't want you dissatisfied.

ORDERS FILLED PROMPTLY. This is my "baby." There is no delay here. Sometimes there is a few days delay in the mails. Don't be in too much haste to complain. Wait a little, and before you write ask me to Postlock, or to include an extra charge package, as they are often too large for the boxes, and may be laid one side and overlooked. It is necessary to write, since your order will be delayed. I do this, but I will not be blamed for it. Always remember to write at once, and in WHAT WAY you remitted, so it can be traced.

ALL CLUB ORDERS are sent direct to Agents. Put your name and address ONLY on the order to Club. Orders are made as they are received. I do not want to wait to order anything while you are at work. I order them every night and in the morning. As a matter of fact, I do not want to wait to put any money in your hands.

Is Your Name Cook?
"We may live without poets, music and art, We may live without conscience, and live without heart; We may live without books, but civilized man cannot live without Cooks!"

I much desire the name and address of one person in each family in the United States by the name of "Cook." Somehow it seems to me that all Cook's especially should know of my bargains in seeds and premiums. Please send the names (one only) in each family, and order the Seedsmen's Catalogue.

Golden Tankard Mangel-Wurtzel Beet.
This is decisively the finest mangel in cultivation, and best for dairy use. Of very large size, skin and handsomely pulled, it grows two-thirds out of the ground with close planting. The flavor is rich, golden yellow, exceedingly nutritious. It is early, hardy, and a very heavy cropper. The Golden Tankard has quickly taken the lead of all other varieties. It contains a large percentage of sugar and is much relished by milch cows and sheep. Out of the best of keepers. Farmers should give root crops more attention. The wonderful results of feeding roots are plently in the health and nutrition of cattle, sheep, and in the greatly increased yield of milk and rich, golden yellow butter. Do not miss planting a good tankard. It will be dollars in your pocket.

Selected seeds in LARGE PACKETS 5 cts. each, 6 for 25 cts. Improved Purple Top Yellow Rutabaga.

It is of the choicest quality, and full of nourishment; very solid, of a beautiful orange color, with a handsomely formed crown. Will keep all winter and even into the following summer. It is the result of many years of careful selection.

Some large white, purple eyes—some round, pale red, 30 to 40 in a hill—some pale blue—some white, and just 2 inches or more long;—some large black potatoes, etc. I never saw so many different colors and shapes.

THE FAMOUS NEW FAXON SQUASH.

This new and distinctive variety is very early, of medium size, unusually productive, and of the best possible quality. They cook dry, sweet and rich whether ripe or green—are an excellent keeper, thus supplying the table with this delicacy during three seasons—summer, fall and winter. Some Faxon are pale yellow, while others are green, mottled, etc., in fact it is a curious admixture of many sizes, shapes and colors. This is a characteristic of the squash. The flesh is deep orange, very smooth. Nothing equals it for pies. I consider the Faxon decidedly the best of all squashes. Many who never could cat squashes before consider them delicious. Don't miss the Faxon. It cannot be praised too highly. Every customer will thank me for advising them to try it. Pkt. 10c. 3 for 25c.

Japanese Nest-Egg Gourd.
This new and beautiful variety varies in size from a pigeon's egg up to a goose egg, but mostly the size of a hen's egg, and so exactly the shape and color, as to almost deceive the eye. The shells are hard and durable, and make the very best nest-eggs, as they neither freeze or crack. The Nest-Egg Gourd is a rapid and desirable climer, quickly covering old sheds or any unsightly object with a mass of green foliage, thickly dotted with beautiful white eggs. Boys can make lots of money growing this gourd, and selling them to your neighbors for nest-eggs.

NEW DOMESTIC COFFEE SEED.

This makes a delicious, nourishing drink, to take the place of injurious coffee. It is a pure food drink that gives health and great strength to young and old. By all odds the best coffee substitute ever discovered. It has the rich, deep brown color of old Java. Thousands pronounce it as good as the best store coffee. One of the hardiest, easiest raised, and most productive of all plants. See photo showing its amazing productiveness. Thousands suffer untold injury from store coffee. Better grow the new kind at one-cent its cost, and save your health—and money—$10 to $20, or more every year. It is as easily raised as corn or beans, and does well on all soils. You can raise all your own coffee at a nominal price. Plant a liberal quantity.

Besides its great value for coffee—it is a splendid poultry food, and a GREAT egg producer. It will put money in your pocket. The Experimental Station reports that it has MORE THAN DOUBLED the feeding value of either corn or wheat.

FINES STRAIN OF LATE DRUMHEAD IN CULTIVATION

Best of All—a Wonderful Seller.

F. B. Hall, Lincoln Co., Maine, writes—I raised tons of Short Stem Cabbage plants. Every seed grows. This cabbage is best of all, and a wonderful seller.

Almost Thunderstruck.

Dr. J. M. Ashley, of Texas writes—oh, wonderful what cabbage I did make from your Short Stem Drumhead: all that saw them were amazed and astonished.

Cabbage and Cauliflower were Wonders

Mrs. A. M. Troffy, Burnside, Canada.—We never had better vegetables than the Short Stem Cabbage. The best Cabbage I have ever raised. The Snowball Cauliflower heads were as large as a good sized milk pan. They were a wonder to all.

SPECIAL.

All of my cabbages are grown from Extra Hard, Solid, Perfect Heads, pure and true. This seed actually costs twice the price—times as much to grow as that I could grow in the open market, but I will send it for the price of $1.00.

ENCOURAGE GOOD HEALTH

By the free use of seasonable vegetables. Nearly every vegetable supplies something needed by the human system. Potatoes, Carrots, Radishes, Turnips, Squashes, Beans, Beans, Salsify, and Onions are especially beneficial. Use Vegetables freely. They will cure nearly all the diseases that exist. However, I shun an assiduous use of eggs and other animal products, as they are not necessary for health, and may be replaced by vegetables.
NEW BANANA MUSK-MELON — Crows Over 2 Feet Long

This curious new variety originated with one of our best growers in South Jersey, and is pronounced by him the most profitable variety he has ever grown. He realized an average of forty cents each for his entire crop, as they were eagerly sought after in the Philadelphia markets on account of their great oddity of shape and appearance. They look and smell like overgrown bananas. They grow from 20 inches to 2 feet long, are very productive, with deep yellow flesh, by many preferred to any other. This remarkable and delicious fragrance one cannot bear to be without. A great curiosity, and sure to attract attention.

Packet 5 cts., 6 for 25 cts.

NEW PROLIFIC TREE BEAN.

A new and valuable variety, and by far the most prolific dwarf bean known; growing about twenty inches in height, branching out in all directions, bearing its pods in marvellous profusion, and so high that they do not touch the ground, enabling it to stand a wet spell without injury. They often yield one hundred bushels to the acre, and a single plant has produced 300 full sized pods. Plant in rows 3 feet wide and 18 inches apart, and 6 inches in the row, one bean in the hill. Do not crowd them, as they are a shell bean. A very profitable crop. They are of fine flavor. Packet 10 cts., 5 for 25 cts.

ROBERT SMITH, York Co., Maine, writes:—Our New Prolific Tree Beans outyield any ever seen, and I must have some more.

D. K. BEAR, Middlesex Co., Mass., writes:—The Prolific Tree Beans produced in this year over 800 quarts of beans, a near perfect measure. I shall plant a large piece this year.

Mammoth Salsify, or Oyster Plant.

A vegetable that is sure to be called for, where it is once introduced. It is a good substitute for oysters, being equally wholesome and nutritious. The roots are either boiled or mashed, and made into fritters, in which form they are delicious. For an oyster stew, cut the roots into small pieces, cook until tender, then add the other ingredients, and the dish is perfect. Our Mammoth Salsify is a slow grower, but it is a hardy plant, and will remain in the ground all winter. No garden should be without this splendid vegetable. Packet 6 cts., 6 for 25 cts.

From EDWARD BEARD, Economy, Ind. We have used this seed for three or four years, and will say that we have never dealt with any seedsmen that sent out such good seed. Seeds neatly packed, and in such liberal quantity.

GOLDEN QUEEN TOMATO.

Extra Curled Cress or Peppergrass.

An appetizing relish of fresh piquant taste, often added to lettuce and other vegetables for variety. It is very quick growing, dwarf and compact; leaves finely cut and feathery, ornamental, erect, and pungent; very refreshing.

MY LIST of Vegetable and Flower Seed contains the names of everything worth planting.

DO YOU KNOW

"Cook's Seeds Grow."
Extra Long Green Giant Cucumber.

A veritable giant among Cucumbers, and merits the highest praise. Enormously large and handsome, every specimen grows from 20 to 30 inches in length. It is a very strong grower, fruit straight, smooth, uniform, and produced in great abundance. It has few seeds, not one-fourth as many as other sorts. Quality excellent, crisp and tender. A very fine pickling variety, and unexcelled for slicing. Every one should grow this remarkable novelty. No variety will equal it for exhibition. It will be a wonder to yourself and all beholders.

Packet 10 cts. 2 for 50cts.

"The Green Giant Cucumbers were splendid. My neighbors were astonished at their great length. One measured 28 inches."

Lula Williams, Westville, 1. T.

"The Long Green Giant Cucumbers were round, and of immense size. They were the wonder of the community. I left for seed all over 15 inches in length. Your Short Stem Drumshaped Cabbage, Powells Beans and Coffee Berries were worthy of especial praise."

Mrs. Emma Wilhede, Lantz, 3Id.

PERENNIAL—OR EVERLASTING PEAS.

The Improved Perennial Pea—to my fancy is one of the prettiest climbers that grow, and is peculiarly adapted to our climate. They live right along year after year, and bloom continuously through the long seasons from June to Sept. Their magnificent clusters of flowers are beautiful, and, what is most desirable for cutting, they are perfectly hardy everywhere, thrive well in any soil—even if poor. Perennial Peas are deservedly popular wherever known. They are a very rapid grower—attaining a height of 8 to 10 feet—quickly covering a trellis or unsightly walls, sumps, etc., with a mass of vines, loaded with bright blossoms. You will not regret planting a liberal lot of these everlasting climbers. I offer choicest mixed colors.

Large Packet 10 cts. 3 for 25cts.

Protect The Birds.

Protect The Birds. Encourage them in every way. They are the Farmer's and Gardener's best friends. They till our homes, our meadows, and the woods with heavenly music. It is well for all who can to encourage them by precept and example. Put up houses for the wrens and bluebirds. It will pay. Feed the birds in winter. If feed them every day, and they come from far and near. It is a delight to see them. I am sure no lady customer of mine will be guilty of the cruelty of wasting birds on their hats, and I earnestly pray that each one will do their utmost to convert others from this barbarous practice. A. T. Cook.

EXTRA PROLIFIC POP CORN.

This remarkable new variety is the most astonishing yielder ever found among Pop Corn. Its enormous yields seem almost fabulous, for it produces 4 to 12 good ears on every stalk. Popcorn, when cured, are 6 to 8 inches long, filled with light colored grains—very handsome. Stalks grow 6 feet high. Prof. With-

BROAD LEAVED SAGE.

Sage is most extensively used of all herbs for seasoning. The leaves and tender top are used in stuffings, soups, etc. Sage has many medical properties. Now early, and thin to 2 inches when mature. Sage will last many years. This is the best kind. Have you a bed? If so, now is a good time to plant one.

Packet 5 cts.

Select Surehead CABBAGE.

"ALL HEAD, AND ALWAYS SURE TO HEAD."

This magnificent cabbage is a most valuable contribution to horticulture. The heads are very large, round, flattened on top, marked by yellow, extra hard firm and fine texture. May be planted closer than usual as it has so few outside leaves.

This makes it especially profitable to grow. A Rose of Yates Co. N. Y. grew a plant from the marked cabbage of the astonishing weight of 64 lbs.

If you want a cabbage that is practical, and always sure to head (even under adverse conditions) you will find it in the Surehead. It is a late variety, and one of the very best of keepers. It has a very high quality, renders it especially desirable for home use, and select retail trade. Extra Selected Seed—saved from the best heads. Packet 10 cts. 3 for 25 cts.

THE ASPARAGUS BEET.

This delicious species (also called Sea Kale, or Swiss Chard) is grown for its leaves only. The leaves are used like spinach, but the great value of the plant is its large, fleshy, mild ribs of the leaves which are cut and cooked as asparagus, and are EXTRA FINE. As a substitute for asparagus nothing could be better. Ready to use in 2 months from planting and may be used continuously all summer and fall. It is a most valuable vegetable—too good a thing to miss, and I hope every one of my customers will plant it. Pkt. 5c.

EXTRA DOUBLE CURLLED PARSLEY.

Parsley is a flavoring herb of highest culinary value. This superior variety has beautiful, mossy, curled and crimped leaves, light brilliant shade of green, and large size. No one planting it once would ever be without it.

The Leaves can be dried for winter use or take up a few plants and store in the cellar. Packet 10 cts.

"Better to pick a small bouquet, And give to your friend this very day, Than a bushel of roses white and red, To put on his coffin when he is dead."

NEW EXTRA EARLY SUGAR CORN.

The best early—and the earliest of all Sweet Corn. Very productive, and sweet. Ears good size for so early a variety, being 6 to 10 inches long. Usually two ears grow on one stalk, and sometimes 3 or 4. This is the sweetest of all ears, and should be in every garden.

Especially valuable for the market gardener, to completely control the early market. Packet 3 for 25c.

"I planted your Early Sweet Corn on April 2nd, and had roasting ears on June 4th, which was 4 weeks earlier than my other corn." ABE DAVIS, Forest City, Ark.

"Your seeds are perfect—every one seems to grow. Your Extra Early Sweet Corn is the only kind that will mature attractive." MRS. S. K. KNELLAND, Tanquey, Nova Scotia.

You May Be Disappointed

In not finding in my catalogue varieties that are largely beloved by other seedsmen. If they are omitted there is a reason for it. Is it not cheaper for you to be disappointed now than at the harvest time? As unworthy sorts are left out of this catalogue.
Clant Summer Crookneck Squash.

This new strain is even earlier than the common variety, while the squash grows to an extra large size—from 18 inches to two feet long, and of finest quality.

They command an extra price in all markets. One grower reports $125 worth sold for 15 cents. This is the best flavored and finest of all summer squashes. Per packet 5 cts.

Strawberry Husk Tomato.

These unique tomatoes are a wonderful fine fruit, and grow from the seed in 80 days. They are simply superb for canning, preserving or pies; everyone calls them the most delicious. If left in their husks, and stored in a cool, dry place they keep fresh all winter.

Dried in sugar as raisins or figs, and to use in fruit cake etc., they are unsurpassed. They are a handsome golden color, the size of large cherries, and enormously productive. They have an exquisite flavor. Many say "Better Than Strawberries" to eat out of hand. No one ever gets tired of them. They are hardy everywhere, and produce enormous crops, even when other fruits are a failure. Packet with full directions for planting, use of fruit etc., only 10 cts. 3 for 25 cts.

EARLY WINNICSTADT CABBAGE.

A well known and very popular variety, heads large, decidedly conical, remarkably solid and hard, even in summer. This is a sure header, a good shipper, and suffers less from the cabbage worm than any other sort; valuable for both summer or winter use. Market Gardeners and all others desiring a choice strain of this desirable cabbage should try my selected seed.

EARLY WINNICSTADT CABBAGE seed, which is often grown from stamps and unsaleable rubbish. Per 20 cts.

"Raised a garden full of Cabbages from your seed last year. They were the finest cabbage I ever saw. My horticulturists failed to raise any at all, and I told them they should have planted Cook's selected seeds." P. R. Hurn, Wash Co., Ark.

The Great Prize Pumpkin

KING OF THE MAMMOTHS

This grand, colossal variety is entirely without a rival; it astonishes everybody by its mammoth size and heavy weight. Indeed no other pumpkin has ever attained such enormous weights, or been awarded as many prizes. Think of it, a single pumpkin weighing 250 lbs. See Cat. Is not this the greatest of all pumpkins? In France they have been grown to still greater size, and as many of my customers have as good, rich soil—as highly productive, as any there in France or anywhere else on the face of the earth. I see no reason why they cannot be grown much larger here. The flesh and skin of this monstrous pumpkin is a bright golden color, very fine grained, and of excellent quality. Notwithstanding its enormous size, it is one of the best pies or table pumpkins ever grown, and is a splendid keeper. I hope all enterprising pumpkin growers will give this variety a trial. You will be sure of a prize at our County Fair. Full directions on every packet, giving best methods of planting, etc., to secure the largest specimens. See offer below. Extra seed saved from selected large pumpkins. Packet 10 cts. 3 for 25 cts.

New Winter Pineapple Muskmelon.

The Winter Pineapple differs from all other muskmelons in shape and appearance of the fruit and its wonderful keeping qualities. The melons weigh from 8 to 12 lbs. each. It is a most valuable novelty. These splendid melons do not ripen on the vine like other muskmelons, but they ripen in boxes; in cold frames before frost, lain away in a cool, dry place where they will keep their sugar and sweetness for several months. When ready for use they are cut in a warm room, where they will ripen in a few days and be ready to eat. The flesh is unusually thick, solid, and melting; a light green color, with a most delightful flavor im-

aginable, being rich, spicy, and delicious, with an agreeable pineapple taste.

The Artist, (Mr. Blanch of Phila.), who has made engravings of, and tasted all the new melons introduced in the past ten years, says, that after trying her melons, she considered them the finest flavored muskmelon she has ever eaten.

Everblooming Petunias.

$\text{§}$ also an ELEGANT nr. 4.

I desire to call attention to these enchantingly lovely flowers. They are a superb mixture of wondrous beauty—over 40 varieties. They comprise an 'endless' assortment of colors, shades, and markings. The Petunia is known as the 'Queen of all Flowers.' They will bloom in a month or so after planting, and will continue to produce a perfect cloud of brilliant blossoms until hard frost. No one who loves flowers should fail to plant them.

Mr. A. D. Cook.—Your Petunias

were a perfect delight all the summer long. The blossoms were immense, and of the most beautiful tints. I was very gratified to find them taken out of the house, and they have bloomed continuously all summer.

Mrs. C. C. A. F. F. M. A.

This Pumpkin is of medium size, pear-shaped, flesh thick, creamy white, fine grained, dry, and of most excellent flavor. Hardy, productive, a good keeper. The best variety for pies, and equal to many squashes for cooking.

FLOWERS.

"God might have made the earth bring

Enough for great and small, forth

The adder and the thorn-tree,

Without a flower at all.

He might have made enough, enough

For every want of ours,

For luxury, medicine, and toil,

And not have made no flowers.

Our outward life requires them not,

Then wherefore had they birth?

To minister delight to man.

To beautify the earth,

To comfort men—to whisper hope

Where'er his faith is due;

For He who cares for the flowers

Will care much more for him!

ADDRESS, A. T. COOK, HYDE PARK, DUTCHESS CO., N. Y.
Colorado Preserving Citron.
This is quite distinct and far superior to the ordinary citron, the seeds being a light green color. It is immensely productive; one vine produced 25 fine melons, weighing from 10 to 50 lbs. each. The flesh is very firm and solid with few seeds, and makes beautiful, clear, transparent preserves of surpassingly fine flavor. It is a grand seller and will make you money. Pkt 5 cts.

Early Snowball Cauliflower.
The earliest, the surest header, the best and most profitable of all cauliflowers! No other variety compares with it. Snowball cauliflower is the standard everywhere, the best of all varieties in every market and private garden. It is very compact grower, and a certain plant, absolutely certain to form a good sized head when the conditions are right. It is good the entire season, and it is easily grown and is a great luxury in winter, and always sells at good prices.

Plant about July 1st, and pull late, and store in a cellar in boxes of moist earth. Large Pkt. 5 cts. 3 for 25 cts.

New Palmetto Asparagus—True Stock.
DECIDEDLY THE BEST IN THE WORLD.
This new variety is the finest ever cultivated. After years of trial and testing, it is pronounced by all to be far in advance of all others, being much earlier—far better flavored and double the size. Indeed this variety is so superior that gardeners are already cutting their old sorts and planting with Palmetto, it is a wonderfully tender, rich and buttery when cooked. No other can compare.

Every family should have a supply of this very beautiful and delicious vegetable. A few packets with full cultural directions, 10 cts. to 25 cts. 12 packets will produce $20.00 to $30.00 worth of plants. Also Both Asparagus and Asp. Planters as money makers, and sell quickly at big prices. Plant a lot of it for few things pay better.

From the Editor of American Garden. TRULY A GIANT AS PARSNIPS. A bunch of 30 shoots of Palmetto Asparagus exhibited by a firm, gardener, beats anything ever heard of. It weighed 3 lbs. —the growth of only 3 days.

Wishing Hillboro Co., N. Y., writes—Your Palmetto Asparagus and Pop Corn are both truly wonderful. I have planted your seeds seven years and find them the best of all. Your packets are twice as large as any other, and you always send so many extras.

True Rocky Ford Muskmelon.
The advent of this valuable variety has done more to popularize muskmelons than any other sort. Over the entire country these celebrated melons have been shipped from Rocky Ford, Colo., realizing enormous profits. Unquestionably the best early Muskmelon.

An Amazing Yielder.
A Healthy Vigorous Groower. Always Brings the Highest Price.

Enormous prices are paid for this variety to the exclusion of all others. Every market and home gardener wants it largely. No other melon can bring you so much money. My seed is pure and true, and selected with extra care. Beware of spurious seed—there is very little of it offered. Pkt. 10 cts. 3 for 25 cts.

PLAN'T FLOWERS.
Plant flowers carefully, from house to the roadside, to make every passer-by gaze with delight. You can profit from bouquets or enameled in your tresses, and beautify home from morning 'till night.

FROM PROF. C. C. GAINES, -- PRESIDENT

of the World Renowned

Eastman National Business College.

Poughkeepsie, N. Y., May 31, 1903

Mr. A. T. Cook, Dear Sir— I write to acknowledge the receipt of your Post Cards. These are all very attractive, and I want to congratulate you on your success in doing in the interest of a good cause.

When a man puts a thing of this kind in his life, he never takes hold on immortality. He entitles himself in some measure to a place in the "choir invisible of those immortal souls" who all again in minds made better by their presence. In looking over your cards I found distinct the feeling that I would like to do some good in the same way, and may yet find occasion to work out something in imitation of your good example.

With sincere good wishes,
Very truly yours,
C. C. GAINES.

Healthy, Delicious, Asparagus.

Don't miss having an Asparagus bed. The True Palmetto is incomparably better than other sorts. It is earlier, doubles the size, finer quality, and a much stronger and healthy grower. Planted in any other even as a gift. Asparagus is ALWAYS a big money crop. It is extremely healthy, and will do you more good than all the quack medicine and drugs ever made. A well made bed will give you an abundance for a lifetime, and will be worth a hundred times the cost. Don't put it off. Plant a lot of seed. You can sell your surplus plants to your neighbors at an immense profit.

EVERY BOY in the U. S. should have a melon patch, and raise hundreds of big, sweet melons.
NEW EARLY WHITE VELVET OKRA.

Oka is a fashionable Southern vegetable, one of the easiest growth and matures first season even in the extreme north. Pods are used when young and tender, are excellent for soups, stews, etc., and really delicious when pickled. The White Velvet is best of all Okra, very early and distinct. The pods are round, smooth, and handsome; much larger than any other and of superior flavor and tenderness. Very prolific. Why not try Okra this year? COBRAE A VINE— Rare Climber.

Every one is very much delighted with this handsome, rapid growing annual climber. It attains the height of 20 to 30 feet in a season. "I lay all my cheeks down and run to your honest list. Your seeds ALWAYS please." Mrs. G. T. Williams. N. J.

True Ice Plant.

MESEMBRYANTHEMUM CRYSTALLINUM

A handsome and unique annual plant, for hanging baskets, rock-work, vases, and house plants; also fine for beds, edgings, etc. The leaves and stems are almost transparent, appear as though covered with icy crystals that look peculiarly brilliant and glittering in the sunlight. It is a plant of the easiest culture and that is always admired. It should be in every flower garden. The flowers are white.

Cut shows the attractive appearance of Ice Plant in Pot Culture. Packet 5 cents. All your seeds give entire satisfaction.

From Irene Dean in "Epitomist." Oh, what beauties my Ice Plants were. They were entirely covered with "icy" crystals. I set one in a 3 inch can; it grew as large as a big tin pail. Everyone that saw it was astonished. The flowers are very beautiful.

VERBENAS,—Superfine Mixture.

Very few plants make such a gorgeous display during the season as the Verbena, or furnish more flowers for cutting. Unrivalled as a constant bloomer, brilliancy of flower, and sweet fragrance. They grow from seed the first season. For herbaceous bloom—large blossoms, and variety of colors—my selected mixture cannot be excelled. I think everyone to grow these lovely flowers.

Large Packet 10 cts. 3 for 25 cts. 12 for $1.00.

| 10 | 36 packets—with your choice of Premium Watch, Coral Neck Chain, Solid Gold Fountain Pen, or Stereoscope and Views,—also $5.00 worth of Novelties and Exotics—all prepaid for only $3.00. Please get up a club.

LONG STANDING SPINACH.

Spinach is a delicious vegetable other than for summer or fall sowing. This variety is the gardener's favorite; it is a most attractive color with thick, shiny leaves of fine texture. Extremely hardy, and stands long set of all before going to seed. Packet 5 cents.

COOK'S PERFECTION PARSNIP.

Rightly named, and without doubt the finest strain of Parsnip that can be produced. It is a wonderful improvement on the old sorts, and no one desiring the best should fall to grow it. The roots are very smooth and handsome; tender, sugary, fine-grained and of most excellent quality. Customers are unanimous in praising it. This is truly a delicious vegetable, very fine stewed, fried, boiled, etc. All who do not like the old poorer sorts are recommended to try this. It produces enormous crops; and the short, thick roots are easily gathered. It is without question the best for home use, market, or exhibition purposes.

While this is essentially a table parsnip—it is also superior to all others for stock feeding owing to its great size and extraordinary sweetness.

Dear Friends:—I offer you these remarkable Potatoes because I honestly believe them decidedly the BEST IN THE WORLD. Their incomparable table qualities, extraordinary earliness, enormous productivity and beauty will make them the envy of the entire Home Garden. When raised for market, their easy-growing and easy-selling qualities render them a money-maker beyond compare.

I have been an enthusiastic grower of Potatoes—multitudes of them—for over 30 years and can truthfully say I never found their equal—or anything near it, in traits that go to make a perfect potato.

I want you to try them. It will be many dollars in your pocket—and comfort in your home. I want you to grow a year's supply for your own table—and enough over to plant, and bring you in a snug little fortune.

You can hardly imagine how good and how early they are. Grow them once and you will grow them always. Read Testimonials on another page. I could fill my entire catalog with such as these.

I need only add, the Early Six Weeks are unusually healthy, hardy and vigorous, so quickly early and trouble little. Tubers are very smooth, slightly pink, and always cook dry, sweet and floury. They are the very best of keepers, remaining hard and plump, and retain their matchless flavor clear up to July.

Hundreds have testified they have positively produced fine eating potatoes six weeks from planting.

Address, A. T. COOK, HYDE PARK, Dutchess Co., N. Y.
From Prof. W. H. MORSE M.D. Agricultural Chemist, and Author.

If people knew their extra qualities and money-making possibilities you would be overwhelmed with orders. Always with esteem, W. H. Morse, Hartford Conn. Nov. 20th.

EARLY PROLIFIC POLE BEANS.
Also Known as Kentucky Wonder, Homestead, and Seek-No-Further.

My greatly improved strain of these truly wonderful beans will make a sensation anywhere. They are marvels of productiveness—giving immense crops from July until Frost. Large, thick stringless pods, meaty, tender, and superlatively delicious.

These remarkable "silver green" pedaled pole beans are everlasting bearers, and fully 30 days earlier than any other pole bean in existence.

The pods hang in great clusters from the top to the bottom of the pole, and can be gathered by handfulls.

The pods are very large and long—fully 8 to 10 inches in length, entirely stringless, plump, firm, and almost "solid meat," cooking meltingly tender, and of superb flavor.

Every state in the Union—as well as Canada—sends words of praise for these enormously productive beans. Every lover of delicious beans should have a bountiful supply.

Price 5c Packet 10 cts. 3 for 25c. 12 for $1.00.

Three Special Novelties Free.
Please do not overlook the 3 grand novelties I give free to every customer (and Club Agents-Customer) who orders 50 cts., worth or more—as stated on page 4. They are worth your best care, and if you don't say they are worth $1 to you, I am mistaken.

This Offer is specially valuable to Club Agents—making it doubly easy for them to take orders.

World Famous Prizetaker Onion.

Its mildness of flavor and tenderness are unequalled even by Bermuda varieties.

Without exception the grandest variety of yellow globe onion for our American climate. It is the largest, handsomest, finest flavored, and in every way the peer. It is admittedly the largest of all; samples have been grown to the enormous weight of 5 pounds each.

With good care it produces wonderful crops everywhere; one reports "over 1200 bushels per acre"—another "I grew 190 bushels on exactly one-sixth of an acre."

Excels in yield, excels in size, excels in quality, excels in beauty.

The Prizetaker is easily grown, ripens up hard and firm, is a good keeper, and always brings an extra price. It is certainly a wonder, and nothing short of a miracle. Gladly convey an idea of its grand qualities. Don't miss it. Remember my seed is American grown, carefully selected, and pure.

The Finest Onion ever raised.
Your Prizetaker onions are the finest we ever raised.

Mrs. Ada McLean, Elk Co. Kansas.

Your Prizetaker Onions are Wonders.
Your onions are wonders; some measured 15 inches around. No one ever saw the like. Had enumerates 21ins. long, and cabbages weighing 60 lbs. each.
